ATTENTION

• Before bringing any new chemicals into the cleanroom, the user are required to provide an MSDS to the Lab Manager, and receive written approval.
  – The approval process may require up to one week.
• All users are required to use chemical gloves, face shield and apron when working in this hood.
• Small containers filled by users must be
  – labeled with the chemical name, user name, and date.
  – appropriate storage of small containers need approval by NNF staff.
• When finished using the hood:
  – Clean appropriately any labware used (beakers, etc.)
  – Place them in the cupboard below.
  – Dispose of wipes and droppers in the appropriate container. Do not store hazardous waste under the chemical hood.
• Failure to comply with any of the above will result in loss of lab access privileges for one week.

• Marcio Cerullo, Lab Manager 5-5054          October 11, 2009
